

Performing Manufacturing Operations Apprenticeship (Level 2) x 2

Washington, NE37 3HR

The Company

This company is one of the UK's largest independent food packaging manufacturers. Pioneers in the plastic packaging industry, they pride themselves on being at the forefront of the latest technologies and cutting edge processes. Furthermore, their in-house innovation centre and manufacturing facilities enable them to offer the complete package from initial concept and design to production, decoration and delivery.

Job Role

The role is 37 hours. 08:00 – 16:30 hours

The successful applicant will carry out a range of duties involving:

- Extrusion and Granulation
- Thermoforming (packing and labouring)
- Decoration (printing/labelling and Card wrap)
- Injection Moulding Labelling
- Tooling
- Setting

The role will be as a Production Assistant and once you have successfully completed the apprenticeship training, the production training will continue over the years with the expectation of you progressing through the different processes detailed above and to ultimately achieve the highest level possible

Applicants must have a GCSE grade C/4 or above in English and Maths

Salary

The initial hourly rate for the first year will be £4.00 an hour and will rise to the National Minimum wage applicable to your age until out of apprenticeship. You will then be paid the rate for whichever role you are fully trained to carry out.
