

Production Apprenticeship x 4

Washington, NE38 9BZ

The Company

This company was founded in 1964 and is currently undergoing one of the strongest periods of investment in its 50 year history. Today they are building new factory space to meet production demands. It is a UK based company which is an award winning designer and manufacturer of single use medical devices for these key clinical areas: Chest Drainage, Ascites Drainage, Reproductive Medicine, Obstetrics and Diagnostic Medicine.

This company has assembled a remarkable range of manufacturing skills from large scale injection and complex insert moulding, extrusion and fine detail tube finishing. High grade clean rooms provide for the assembly for a rapidly increasing range of products. They make over 1000 different product lines in their dedicated factory in North East England, where we are a significant employer in the local area.

Job Role

Following training apprentices will work a weekly rotating shift pattern.

Week One – 07:00am to 15.14pm Mon –Thurs, 07:00am to 13.14pm Fri

Week Two – 15:00pm to 23:14pm Mon – Thurs, 13:00pm to 19:14pm Fri

May also include Night Shift as required.

The successful applicant will carry out a range of duties including:

- Perform the work tasks allocated as stated by product specification.
- Check all work for potential quality problems and report any such problems to the Team Leader.
- The job holder will be able to work without close supervision and still be able to fulfil the work allocated to the required standards of quality and productivity.
- A reasonable level of manual dexterity is required.

Applicants must have or be prepared to work towards a GCSE grade D/3 or above in English and Maths

Salary

The successful applicants will start immediately on a salary of £6.00 per hour plus shift allowance (12.45% for Day shift, 15% for Back shift) with possible increments based on successful progression.
